THE EPIC ACCOUNT OF WORLD WAR II's GREATEST RESCUE MISSION
"Riveting and emotionally stirring." —The New York Times
HAMPTON SIDES

THE MOST DARING RESCUE MISSION OF OUR TIME IS A STORY THAT HAS NEVER BEEN TOLD

benjamin BRATT james FRANCO connie NIELSEN and joseph FIENNES

THE GREAT RAID

From director John Dahl comes the stirring true story of one of the most spectacular rescue missions ever to take place in American history: "the great raid on Cabanatuan," the daring exploit that would liberate more than 500 U.S. Prisoners of War in the face of overwhelming odds. A gripping depiction of human resilience, the film vividly brings to life the personal courage and audacious heroism that allowed a small but stoic band of World War II soldiers to attempt the impossible in the hopes of freeing their captured brothers.

1. Careful, minute, continuous, and detailed planning based on known facts and followed by decisive orders and actions is mandatory if penetration of an enemy zone is to be successfully accomplished.

2. Reconnaissance must be complete and exacting and carried out with vigor and enthusiasm if maximum results are to be obtained.

3. When operating in enemy territory every possible means of security must be employed if detection is to be avoided.

4. When surprise is complete the attacker may so demoralize an opponent that the enemy can never become organized sufficiently to take the initiative.

5. Simple signals and personal contact are the best means to control and coordinate a military operation in an isolated situation.

6. There is no substitute for good, sound leadership based on mutual loyalty, confidence and devotion to duty.

7. In an operation behind enemy lines the support of friendly peoples must be procured and utilized to an extent commensurate with their capabilities.

1. Detailed planning based on known facts and followed by decisive orders and actions is mandatory.

Donovan Research Library
Digitized Monograph Collection

Donovan Research Library is currently in the midst of transitioning its massive 10,000+ collection of student papers to digital format. This collection includes after action reports, command diaries, case studies, battle accounts and first hand experiences from U.S. Army personnel during World War I, World War II, the Korean War, the Vietnam War and other conflicts following 1980. It represents the intellectual talent of research and education that soldiers receive from the faculty and staff at the U.S. Army Infantry School and its divisions. Prior to this effort these materials were only accessible through on-site visits.

WORLD WAR I

Personal experience monographs and student papers of some combat operations, actions and campaigns fought by many for four years from the Eastern Front to the Western Front during the First World War mentioning such battles as those fought in Tannenburg and the Marne.

World War I Finding Aid

WORLD WAR II

Personal experience monographs and student papers of some combat operations, actions and campaigns about some of the fiercist fighting fought in Ardennes, Normandy, Rhineland, the Philippine Islands, etc.

STINET MultiSearch

STINET MultiSearch is a STINET feature intended to assist the DOD community to access pertinent scientific and technical information over a wide range of sources. You may click on a database name for direct access to a single database, or click on the INFO icon for a database description. Databases proceeded with provide a substantial number of their reports in full text. For more information, please reference our help section.
